

2023 Public Training Programs

SERVING THE EAST AND WEST COAST TIME ZONES

Again this year, many of our popular training programs are available in a virtual format! Your staff can plan to attend our sessions from either the comfort of their own homes or from your offices. We're serving both the eastern time zone and the pacific time zone. Our virtual Zoom classrooms offer numerous engagement tools for our learners! Depending on the length of the program, the classes will either be run over three or four consecutive days for approximately six hours a day. Our public training programs are a terrific training option for numerous reasons. Most of the firms who participate in our public programs are small to mid-sized firms where bringing us in-house would not be cost effective. By joining us in our virtual classrooms, your professionals can attend the training program that matches their specific level of experience. By removing the travel costs associated with attending in-person sessions, we hope many of you will consider registering your professionals to attend our most popular training programs! We will continue to limit the size of our classrooms so that we can provide the same level of instructor-to-learner ratios as we do in our group live sessions.
